

小二學生在全方位學習日中參觀了香港文化博物館。學生在各有特色的展覽廳中實地體驗及學習：如在「兒童探知館」自由探索大自然的奇妙及考古的奧秘；在「粵劇文物館」裡置身戲棚和後台，體驗廣東戲曲藝術的精妙；在「金庸館」裡認識金庸武俠小說所蘊涵的豐富知識內容。

BIRDS

What are birds?

- Birds have horny beaks but without teeth.
- Birds have feathered wings.
- Birds lay eggs.
- Birds are warm-blooded.

Birds have spectacular ways of surviving

- When in danger, birds will sing to alert their companions.
- To keep birds' eggs and nestlings safe, birds build nests in hidden places.
- Their strong and streamlined wings help them to fly high and search for food.

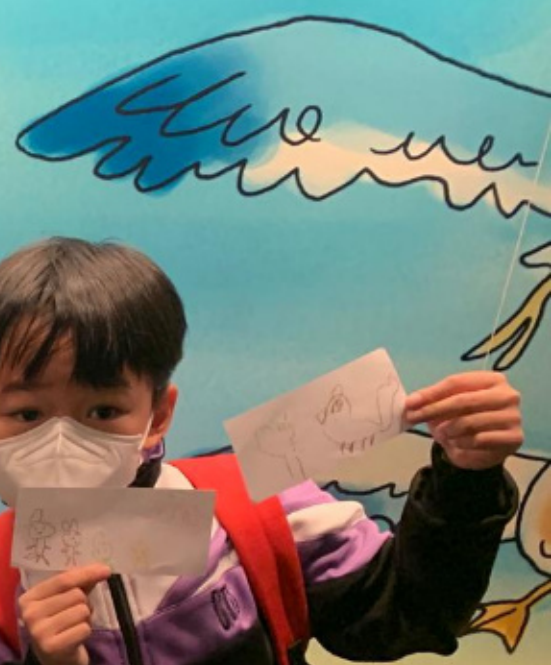

There are 450 species of birds in Hong Kong, and many of them live in urban areas. If you want to watch them carefully, it is not easy. Please observe these lovely neighbours carefully.
